

## REGISTRATION

Interested participants are welcome to register at:

**Primate Research Center, Bogor Agricultural University:**

Tel : +62(251)8313637; 8320417; 8324358

Fax : +62(251)8360712

Email : pssp.lppm.ipb@gmail.com

Contact Persons : Eko (+6287772583961), Tita (+6285718006195)

**Registration fee:** Rp. 250.000,- (two hundred and fifty thousand rupiahs). Fee includes certificate, seminar kit, lunch and coffee break.

Payment should be made by bank transfer to:

**Bank NISP, Account no: 585-130-008898 cq: Joko Pamungkas QQ Pusat Studi Satwa**

**Primata IPB;** or by cash handed directly to the Secretariat Office at Jalan Lodaya II No. 5,

Bogor 16151.

All registration and payment will be closed by August 19, 2016; **No on site registration**

## INFORMATION AS PARTICIPANT

Please register me as participant at the One Day International Seminar: Integrating Biological Studies to Promote Primate Conservation Efforts, which will be held at IPB International Convention Center, Bogor, West Java, August 29, 2016.

Full Name :  
Institution :  
Address :  
Contact Number :  
Email :  
Payment : ( ) Transfer / ( ) Cash

..... 2016

.....  
(Full Name & Signature)

Please, send the filled-form by email to pssp.lppm.ipb@gmail.com or by fax to +62(251)8360712. Attach the transfer receipt

## PRIMATE RESEARCH CENTER BOGOR AGRICULTURAL UNIVERSITY

### International Seminar : INTEGRATING BIOLOGICAL STUDIES TO PROMOTE PRIMATE CONSERVATION EFFORTS

IPB INTERNATIONAL CONVENTION CENTER  
JL. RAYA PAJAJARAN, BOGOR, WEST JAVA  
AUGUST 29, 2016

## **INTRODUCTION**

---

Asia is home to a wide range of primates from the tiny slender lorises from India and Sri Lanka or the slightly bigger pygmy slow loris from Indochina to the large orangutans from Borneo and Sumatra, and everything in between. The five families of primates that are found in Asia are Lorisidae, Tarsiidae, Cercopithecoidae, Hylobatidae and Hominidae represent a bewildering array of variations. This diversity is mirrored by the variation of habitats in which Asian primates can be found, from wet mangrove forests on the coast through lowland temperate and tropical forests, to high mountain regions, and increasingly, human-modified or created habitats.

Indonesia with more than 50 primate species is one of 'megadiverse' country facing serious threat due to ecological changes such as deforestation. This condition driven by the increase of human population, resulting in high demands for food, forest products, and energy. These changes are decreasing non-human primate population in the wild that influence the conservation status of the Indonesian primates. Studies on Conservation and Ecology, Genetics and Reproductive Biology, Taxonomy and Behavior, also Rehabilitation and Climate Change need to be explored by the primatology society. To promote conservation efforts, we invite primatology scientist at national and international level to share their work and expertise as contribution to the above mentioned concerns.

## **VENUE & DATE**

---

The one day seminar will be conducted at **IPB International Convention Center**, Jalan Raya Pajajaran, Bogor, Indonesia on August 29, 2016.

## **INVITED SPEAKERS**

---

- ❖ **Director of Biodiversity Conservation (KKH)**  
Ministry of Environment and Forestry Republic of Indonesia
- ❖ **Director of Research Center for Biology LIPI**  
Indonesian Institute of Science (LIPI) - Indonesia
- ❖ **Prof Randall C Kyes, PhD**  
Professor of Psychology and Global Health  
Director, Center for Global Field Study  
Washington National Primate Research Center, University of Washington - USA
- ❖ **Dr Ir Entang Iskandar, MSi**  
Head of Conservation Program, Primate Research Center  
Bogor Agricultural University - Indonesia
- ❖ **Dr Matthew F S X Novak**  
Assistant Professor of Psychology  
Central Oregon Community College - USA

- ❖ **I Made Wedana Adi Putra, S.Si**  
Director of The Aspinnall Foundation Indonesian Program - Indonesia

- ❖ **Wichitra Singhirunnusorn, PhD**  
Director, Multidisciplinary Research Center for Environmental Sustainability (MRECS), Faculty of Environment and Resource Studies  
Mahasarakham University - Thailand

## **PARTICIPANTS**

---

Participants of this seminar are scientists, lecturers, students, and professionals working in the area of biology, conservation, and primate related research from universities, research centers, and other organizations.

## **TOPICS**

---

- ❖ Conservation and Ecology
- ❖ Genetics and Reproductive Biology
- ❖ Taxonomy and Behavior
- ❖ Rehabilitation and Climate Change

## **CALL FOR POSTERS**

---

The committee invites **poster** presentation on the above seminar topics. The authors shall certify that the abstract submitted to the committee has not been published or presented elsewhere. Posters should be printed in A0 format in English. Only 20 posters will be accepted and the committee will select for the best posters among them. The participants are requested to submit abstract.

The abstract should be written in one paragraph at maximum 300 words. Provide maximum five keywords. The abstract consists of title, author(s), author affiliation(s)-full address including department/unit, university/institution, street address, city, postal code, country, and corresponding author (indicate with asterisk). The abstract should be written in single-spaced with 3 cm margins, using Times New Roman font with 12 font size.

Abstract submission for poster will be closed by August 12, 2016 and will be announced by August 15, 2016.

Please submit abstract in MS word format to [pssp.lppm.ipb@gmail.com](mailto:pssp.lppm.ipb@gmail.com)
